PROFESSIONAL SUMMARY

Frontend Engineer with 3+ years of experience designing and building scalable, high-performance web applications using React.js, TypeScript, and JavaScript (ES6+). Strong expertise in state management (Redux Toolkit, Zustand, React Query), REST API integration, reusable component architecture, performance optimization, and WCAG-compliant UI development. Proven track record of improving application performance, enhancing maintainability, and delivering enterprise-grade and government platforms.

TECHNICAL SKILLS

Core Frontend	-	React.js (Hooks, Context API), TypeScript, JavaScript (ES6+), HTML5, CSS3
State Management	-	Redux Toolkit, Zustand, React Query
UI & Accessibility	-	Tailwind CSS, Bootstrap, Material UI (MUI), Responsive Design, WCAG 2.1 Compliance
API & Data	-	REST APIs, Axios, Fetch, Spring Boot Integration, JWT Authentication
CMS & Backend	-	Drupal (Frontend Theming), Java, Spring Boot, MySQL
Testing & Quality	-	Jest, React Testing Library, Unit Testing, Performance Optimization
Tools & Dev	-	Git, GitHub, Postman, VS Code, Agile/Scrum, CI/CD (GitHub Actions), Vercel deployment

PROFESSIONAL EXPERIENCE

Software Engineer | KRAN Consulting Pvt Ltd

Dec 2022 – Present | Trivandrum, India

Galaxy ALMS (Enterprise Lifecycle System - Ongoing)

- Led frontend development for a 14-module React-based enterprise platform used across multiple departments.
- Designed reusable component architecture, reducing development effort for new modules by 30%.
- Integrated Spring Boot REST APIs with secure authentication and complex data workflows.
- Implemented Redux Toolkit for centralized state management, eliminating prop drilling and improving scalability.
- Optimized rendering and API calls, improving Lighthouse performance score from 65 to 90 and reducing page load time significantly.

KRAN Website (Production) & V2 (Ongoing)

- Delivered fully responsive, cross-browser compatible frontend implementation.
- Re-architecting V2 using modular React design with improved maintainability and dynamic backend integration.

C-Part Platform (Production & V2 Upgrade)

- Developed responsive UI and established shared component standards across the application.
- Migrating legacy UI to React-based architecture with improved state handling and scalability.

Government Projects (Drupal CMS - Ongoing)

- Contributed to frontend theming and module integration for two government web portals.
- Implemented **WCAG 2.1** accessibility-compliant markup as per government standards.
- Built a secure authentication module using **React**, implementing API-based login, JWT token handling, protected routes, and form validation.

RISe G-Admin Modules & SmartCampus

- Built high-interactivity frontend modules using HTML, CSS, Bootstrap, JavaScript, AJAX.
- Ensured consistent UI patterns and validation standards across applications.

EDUCATION

BE - Mechanical Engineering (CGPA 8.02)

SNS College Of Technology | 2016 – 2020

LANGUAGE

- English, Tamil, Malayalam
